Process & Decision Documentation

Project/Assignment Decisions

Side Quests and A4 (Individual Work)

Edited the original platformer game to include new sprites and tiles set for the player and the environment. I modified the theme to Minecraft, like the player being a pig, the leaf being a carrot, and the enemy being a wolf. Additionally, I changed the environment to include a sky background, modified the sounds for jumping, attacking, taking damage, and collecting objects, and added a looping background track to better match the Minecraft aesthetic.

Default game:

Figma sprite and tile set editing:
